

PALEOCLEANSE™

Comprehensive functional food powder for detoxification that tastes great, is low in carbohydrates, and is fructose free!

PaleoCleanse™ now features a plant-derived protein blend of pea protein isolate/rice protein.

This new blend offers significant improvements in:

- Taste
- Texture (mouth feel)
- Ease of mixing

Pea protein has an excellent array of amino acids, including BCAAs (branched chain amino acids). It is particularly high in leucine, lysine, arginine, phenylalanine and tyrosine. It also has superior digestibility (98%).

As pea protein has ACE inhibitory activity, it may have a positive effect on the maintenance of normal blood pressure levels.¹ It has also been shown, in rat studies, to have a positive impact on total cholesterol and very low density lipoproteins (VLDL) by stimulating bile acid formation and excretion.²

...and, importantly has been assayed to reveal undetectable levels of lectins.

PaleoCleanse contains quality macronutrients to fuel detoxification pathways, a full multivitamin/mineral for detoxification enzyme support, all the nutrients needed to support and balance phase I and II metabolic pathways, and high levels of antioxidant support for safe detoxification.

This liver formula also contains the most comprehensive array of herbal hepatics, alteratives and cholagogues to promote optimal liver function and elimination.

Recommended Use:

As a dietary supplement, mix 36 grams (approx. two heaping scoops) in eight ounces of water or any other beverage per day, or as directed by your health care practitioner.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
